

## Adopt An Author Agreement

I agree to sponsor an author at the St. Marys Public Library for one calendar year. After that year, I will have the option to renew the author, if I choose. The Library will handle all issues related to the purchase of any title. I understand that I will choose an author from the Library's approved list, and will pay for purchasing all books published by that author for the duration of the year.

I understand that a bookplate will be placed in the book stating that it was adopted and I will be the first to check out that particular book. I will be alerted when the new book is about to be available.

### Sponsor Information:

*\*Popular Authors in the children's and teen section of the library may be purchased by library approval.*

## Adopt An Author

The Adopt An Author program at the St. Marys Public Library is a way for you to support the library by insuring the availability of new books by popular authors. In addition, you will be the first to read your favorite author's new book.

The Adopt An Author program is also a gift idea for that "hard to buy for" person in your life. You can adopt an author to say thank you, in honor of someone or in memoriam to honor a deceased loved one.

You adopt an author from the provided list. When the author publishes a new title, the library will notify you of the cost (usually 25% to 40% off cover price) and when you can check the book out. Then you pay us when you check it out.

## How does it work?

For authors writing multiple series you may choose to adopt one or more of the series.

A bookplate will be placed in the front of each book purchased stating it was purchased as part of the Adopt An Author program.

If you wish you may have your name or that of the person you are honoring on the bookplate as well. Please specify if you wish to remain anonymous.

Please check with the library to make sure your author is still available.

*\*Donations are deductible to the extent permissible by law. A tax deductible letter will be provided upon request.*
