

Colour By Number Pixel Puzzle Picture: Halloween

Pictures can be stored in a computer as a grid of numbers. Each number gives the colour of that small area or **pixel**. This is also the way digital images are stored and represented on a screen.

Recreate the picture by colouring each **pixel** as given by its number. Look up the colour for each number in the key. For example, colour pixels marked 0 in black, and pixels marked 1 in red.

5	5	5	0	0	5	4	4	5	5	5	0	5	0	5	5
5	5	5	3	5	5	5	4	4	4	5	5	3	5	0	5
